1byone Quick Tutorial Installation guide 0505

Wireless doorbells as the name implies do not have wires that connect them to the house's electrical supply. In fact, they are powered by batteries and use transmitters to relay signals when the doorbell is depressed. This is a great feature for a retrofit situation when running wires is difficult.

Doorbells-Wireless | Honeywell Home

The GE Eight-Chime, Two-Push Button Wireless Door Chime provides a do-it-yourself project for a home or office. Program individual sounds for multiple doors using up to four battery-operated push buttons. Customize your chime volume using the low/medium/high volume adjustment feature.
